### ***Drawings***

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings submitted November 23, 2001 are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### ***Reason for Allowance***

1. Claims 1-17 are allowed over prior art.

2. The following is an examiner's statement of reasons for allowance: Although the prior art of Frouin who teaches transmission of isochronic and asynchronous data with respect to priority, Zitek who teaches a control system that utilizes anisochronic models and Zitek et al who teaches control models that utilize anisochronic inverse control of time delay systems, they fail to teach or suggest cumulative transmission capacities of the reserved channels exceeds the bandwidth of the asynchronous data stream and partitioning data of the anisochronic data stream into packets, and filling bit locations of the packets not required to transmit the anisochronic data with filler data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Prenell P. Jones whose telephone number is 571-272-3180. The examiner can normally be reached on 9:00-5:30.
